A VIMY RIDGE GUN FOR MONITOR AND HONOR FLAGS TOO

Fellow-Citizens:

It has been truly said that our Canadian soldiers put Canada on the map, and it is up to us to keep it there. The Monitor District made a name for itself last year by doubling its quota on the Victory Loan and winning one of the Governor General's Honor Flags and four crowns. This year this District intends to win one or more of the Prince of Wales Honor Flags. Further it has entered into competition to obtain one of the 6 inch Guns captured at Vimy Ridge. The District is asked to raise \$20,000. Towards this \$ has already come in. Bonds, from \$50 up can be bought on either a five or ten payment system. The Committee confidently appeals to all who can to buy as many Bonds as possible. Buying Bonds is the practical expression of gratitude, patriotism, good citizenship and thrift. The 1919 Loan is the keystone to the Victory Arch cemented by the life blood of our Canadian soldiers.

Yours for the Gun,
W. S. Wickenden, Secy.

Sad Accident--Befalls Little Helen Bell

Last Monday a sad accident befell Helen, the little daughter of Mr. and Mrs. Wm. Bell, of Monitor district. It appears that Mr. Bell was away at the time, and Mrs. Bell left to drive some cattle to pasture, leaving Helen in the house with the baby. During her parents absence Helen went outside and owing to the severe cold, was unable to re-open the door. On the mothers return it was found that the little one's hands were frozed stiff as far as the wrist. Endeavors were made to restore the circulation but at writing, nothing definite is known as to the little girls condition, although hopes are held out for recovery without amputation.

Come to the Big Hall TONIGHT.

The Nipigon Country

Beauties and Attractions Becoming Better Known by Tourist and Traveller

(By Henry K. Wickstead.)

When the generation now passing away were school children, they learned from the geographies of that day that the St. Lawrence was the "great" river of eastern North America, and that it drained five great lakes: Ontario, Erie, Huron, Michigan and Superior.

That a sixth lake lay to the north of Superior was well known to the Hudson's Bay Company, who had trading posts upon its shores, but the Hudson's Bay Company was apparently not disposed to be communicative about its territory. The general public had no interest in it, and it remained isolated until rediscovered and mapped by the geological and early railway surveys about 1870.

These explorers brought down wonderful stories of the size and strength and numbers of its fish, and especially of the trout, and more, and more, as years went by, it was visited by sportsman fishers, first by twos and threes, and then in greater numbers, as it was rendered more accessible.

The river draining the lake became perhaps the most famous trout stream in the world. The fitting out and guiding of parties of anglers became a permanent business and avocation for the population at the mouth of the river white and red. The anglers made the ascent of the river in canoes, fishing the best pools. The wonderful lake itself was known only to the few.

This laborious ascent of the river is now no longer necessary. Canadian National Railways have a line along its very shores and have established a comfortable hostelry at Orient Bay, which the angler may use as his headquarters.

These developments explain why the lake and river was considered of sufficient interest to be worth a day's stay for the Prince of Wales, as a result of whose visit the beauties and attractions of the Nipigon country have come more prominently before the public.

The lake is some 80 miles long north and south by 45 wide. Its water is of crystal purity. The surface is studded with islands. It is bordered by high bluffs and rocks, and its shores are indented by numerous great bays, many of them almost landlocked. McIntyre, Chiefs, Gull,

Omagha, and Orient Bays are themselves large and almost detached lakes.

Into this great basin flow a number of large rivers: the Gull, the Poshkokogan, the Wabinoosh, Omagha, Onaman, and Sturgeon, and many smaller ones. Out of it the waters flow as the famous Nipigon, pouring in limpid flood over the Virgin Falls, and through a succession of lake expansions, alternating with other falls and rapids, finally shoot under the bridge at Nipigon Village and lose identity in Lake Superior. In the comparatively short course of 30 miles, they descend 240 feet. The Virgin Falls are only one of a series. Cameron's Falls, the Split Rock Rapids, White Chute, Victoria Falls, and Hamilton Rapids, besides several minor rapids, are all serious interruptions to canoe navigation, and would be beauty spots even with tamer surroundings. Their beauty is much enhanced by the rugged grandeur of the gorge, and the brilliant coloring of the precipitous rocks which enclose it.

The fundamental geology of this Nipigon country is Archean, but over the older rocks there has been at some remote period an overflow of volcanic traps and basalt covering many hundreds of square miles, and called the "Animike" series. This covering has been cracked open and swept away at a great number of points, leaving what some of the geologists call a "dissected plain," and these rifts are of great depth and extent, although often very narrow. Basaltic overflows, in cooling, crystallize in prisms at right angles to the surface, which in this case was almost level, and the rock breaks naturally away on these cleavage lines, leaving vertical cliffs often several hundreds of feet in height, and it is this vertical cleavage which gives the region its peculiar and almost unique scenery.

Through one of these remarkable rifts the surplus water of the Nipigon basin found their way from Orient Bay to Lake Helen. Then came the glacial period, and the rift became dammed up by an enormous accumulation of sand, gravel and boulders. When the ice melted the river found a new and more circuitous course through a parallel rift, several miles farther west. As a matter of fact, it probably found two for a time, for from Chief's Bay there is only a short portage with an almost negligible summit into another river, the Black Sturgeon, which runs into Lake Superior several miles farther west.

The peculiar outlines above alluded to are those of flat-topped hills with vertical faces, several hundred feet high, and a lower slope of broken rock fallen from the precipices. But it is not in outline alone that the hills are remarkable, nor in their height, although that is the greatest in Ontario. The coloring is wonderful. Trap rocks are generally dark in color, but they are strongly impregnated with iron which "weathers" red. The lichens which cling to their faces are yellow. The spruces on the plateau are a very dark green, and the birches on the talus slope a much lighter green, shot with the silver streaks of the stems. The lake expansions of the river are of various shades of blue, depending on weather and wind. The foam of the rapids and of the falls is of purest white.

The attractions of the Nipigon country are not confined to scenery and fish. Its summer climate is delightful and healthful. The days are warm and bright, and the nights too cold for mosquitoes. Its people are intensely interesting. There are the de la Rondes, descendants of a noble French family who have lived and traded there for generations. There is McKirdy, a pioneer storekeeper, trader, and outfitter, who has lived in Nipigon for over 30 years, and made a competence, and who knows every Indian and halfbreed in the district, and manages them in his kindly way as no one else can, and they love him and impose on him. And there is Neil McDougall, who manages the "Lodge" at Orient Bay. He has seen service with the H.B.C. in his earlier days, knows and loves the wilderness thoroughly, and spins interesting yarns about his experiences, and is pre-eminently the right man in the right place. Anyone content with comfort and simplicity, and not looking for luxury, and interest-

Stuffy Head Cleared Of Catarrh Germs By "Catarrhozone"

To catarrh victims we have just one word of advice—sure it works. The remedy is "Catarrhozone." That it will cure permanently you cannot doubt. Catarrhozone has cured thousands; it will cure you, too.

It acts in two ways: First, it destroys the germ that checks the progress of the disease. Its second action is to heal the sore places the germs caused. Nice to think of breathing little drops of healing to every part of the lungs, bronchial tubes and nasal passages. It is such absolute thoroughness that makes Catarrhozone so effective in grippe, catarrh, and colds. Then by its sedative influence upon the mucous surface it clears away the cough and throat tenderness very quickly. We give something to a science that has given us Catarrhozone—that wonderful remedy which so surely enables us to permanently cure disease of the breathing apparatus. We all know that stomach poisoning is useless, and this departure in the mode of treatment is an advance in medical science that everybody can appreciate and value. Complete outfit of Catarrhozone, which is guaranteed to cure any case of catarrh, asthma, bronchial or throat troubles, lasts three months, price \$1.00, smaller size, 50c; trial size, 25c; sold everywhere.

ed in things quite alien to metropolitan life, will find the Nipigon country and Orient Bay a delightful place for a summer outing.

Another Irrigation Project

Southern Alberta Farmers are Strong For It

Farmers north of Lethbridge, Alberta, representing 208,000 acres, have voted by an overwhelming majority for the erection of the Lethbridge-Northern irrigation district, and elected their first board of trustees. This is the first step in the erection of any of the large irrigation districts in southern Alberta under the Alberta Irrigation District Act, but will be followed by the erection of a number of other large districts east and south of the city.

The Lethbridge-Northern Irrigation District will now proceed to prepare an official assessment roll, and, after receiving plans and estimates of the irrigation system from the Dominion irrigation branch, will issue bonds covering the cost of the proposed construction. These bonds the Dominion and Provincial governments will be asked to guarantee.

The water for the project will be taken from the Old Man river west of Macleod, Alberta.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for woman's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

Refused \$100 an Acre

Stettler District Sees Farm Land Values Much Increased

Every day brings new stories of the prices being paid for good farm lands in the West. One farmer near Stettler is said to have been offered \$100 an acre for his farm, but turned the offer down. Other land in the vicinity has changed hands lately at prices ranging all the way from \$35 to \$90 an acre. The average price is about \$40 an acre.

In the Stettler neighborhood crop yields have been especially good and have attracted large numbers of the American settlers who are coming in to the West. Average yields in the district are: wheat 40 bushels, oats 60 and barley 35.

Canada's pulp and paper exports lead all manufacturing industries, except that of explosives.

Canada's Future In The Cream and Butter Market.

Farmers of Western Canada seem oblivious to the fact that

in the near future they may have no market for their Cream and Butter. It is a fact, nevertheless, and the chief reason for this state of affairs lies with the farmer himself, and after him, on the agent buying the cream. Canada has many rivals in the

field for the cream and butter mart, and in order that Canada may maintain the lead in this product, it is absolutely necessary that all cream be tested with the maximum of accuracy. The Government has recently passed an order in council whereby all cream-buying agents are obliged to test cream with the "Acidity" test. The purpose of this is obvious. It is to place the Dairy industry of the Province upon a standard basis which would give ample scope for expansion and insure the production of a high grade dairy product.

Agents who fail to comply with the regulations, are liable to a fine and also to have their licences revoked. They have no choice in the grading of the cream and must grade it, with the acidity test.

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

The 1919 Victory Loan

The people of Canada are once again asked to demonstrate their thorough-going Canadianism by subscribing to the limit of their financial ability to the Victory Loan, 1919.

Throughout the war the people of Canada never once failed to meet all demands made upon them by their country, and Western Canada in particular established a record for self-sacrificing patriotic effort unsurpassed in any province or country. Looking back over the history of the past five eventful years, the people of the West have nothing with which to reproach themselves; on the contrary, they have every reason for justifiable pride in their efforts and achievements.

The Great War is over so far as the fighting is concerned. It has ended in a triumphant victory for our cause, a victory made possible by the efforts of the five years now happily gone. But while the fighting is ended, victory achieved, and our soldiers home again, one very important part of Canada's war effort is yet uncompleted. The Victory Loan, 1919, is necessary to finish the work.

War is a tremendously expensive business, and modern warfare calls for an expenditure of money undreamed of in the centuries of the past. Canada pledged its honor to contribute all its powers, resources and wealth to the winning of the war. We said we would go to the limit of our last man and our last dollar in such a just and noble cause. Our men went, thousands gave their lives, other thousands are maimed and suffering from wounds, all require to be again established in civilian life. The soldiers have done their part. They have brought imperishable honor and glory to Canada. As soldiers their work is ended.

But Canadians who remained at home, and who, therefore, had the easier part, have still to finish their part of the work. The bills contracted to win the war must be paid. Furthermore, the expense of war did not end with the actual fighting. It cost millions to bring our soldiers home, and many more millions for pensions and re-establishment. It requires millions for reconstruction work. Other millions are necessary to finance the sale of the products of Canada during this reconstruction period throughout the world.

This money must be provided, and

it must be provided by the Canadian people themselves. The Victory Loan is the medium through which this necessary provision is to be made.

When, during the war, our boys went "over the top," they had an objective before them, and be it said to the credit of Canada's soldiers that they never once failed to reach their objective. But while the "storm" troops went forward, others had to do the less spectacular but equally important work of "mopping up." All enemy depots, machine-gun nests, snipers, had to be accounted for, and a general "clean-up" carried out. If this was not done, and done thoroughly, there was grave danger to the final success of the operation.

Canada as a nation has reached its objective in the winning of the war. Now the work of "mopping up" must be attended to, all bills must be paid, and adequate provision made for our soldiers, and the necessary funds provided to keep all the wheels of commerce and industry turning in this Dominion. With Bolshevism and unrest rampant throughout the world, it would be nothing short of a national calamity if business became stagnant in Canada and unemployment widespread. The result would be disastrous, and no man can foretell what the end might be. A large over-subscription to the 1919 Victory Loan will avert such a disaster.

This is not a loan to the Minister of Finance. It is not a loan to the Union Government. It is a loan by the people of Canada to Canada itself. In other words, it is a loan by individual Canadians to themselves in a collective capacity. It is a loan for national purposes, and every cent of the loan will be spent in Canada and thus redistributed again to the people of Canada. Canadians will receive the interest paid on the loan, and will ultimately receive back the whole of the principal sum.

If Canadians fail to subscribe the amount required, Canada must borrow it elsewhere, and if Canadians refuse to lend their own country the money it needs, it stands to reason that other people will only loan to it at absolutely ruinous rates of interest. Furthermore, the payment of that interest abroad will constitute an annual drain upon Canada, impoverishing it, but adding to the wealth of other countries.

Canada must pay its war bills and finance its own reconstruction policies. It is far better both for the individual taxpayer and the nation that Canadians themselves should provide the principal sum to cover such expenditures, and to pay to themselves the interest charges on that national indebtedness.

Every Canadian should, therefore, strain his or her resources to purchase the largest possible amount of Victory Bonds. Quite apart from helping Canada, and maintaining our national honor and credit before the world, it will prove a first-class investment. The security is unquestioned, namely, the entire resources of the Dominion. The interest rate is good—far better than that paid by any financial institution on savings accounts.

Help Canada to "jump up" by buying Victory Bonds, 1919, to the limit of your ability.

BABY HAD DIARRHOEA WAS GIVEN UP

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY CURED HER

Mothers should look well after their children during the hot summer months, as this is the time of year when the young ones are liable to all kinds of bowel complaints.

If your children have any looseness of the bowels do not experiment with new and untried remedies. Get one having stood the test of time. Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 74 years. Don't accept a substitute and perhaps endanger your child's life.

Mrs. Willis Coupland, Sundridge, Ont., writes: "About four years ago my little girl, then a baby two months old, took diarrhoea. I took her to the doctor, but to no avail. After he had given her up, I read of Dr. Fowler's Extract of Wild Strawberry and immediately got a bottle. Within two days she was improving fast. I cannot ever praise it enough. I hope some poor sufferers will see this letter and lead them to a friend indeed. Price 35 cents. Put up only by The T. Millburn Co., Limited, Toronto, Ont."

The Curious Origin Of One Word

History Locked Up In Words We Use Every Day

A fascinating study is that which searches for the origin of words. Much of the history of the world is locked up in the words we use every day, utterly unconscious of their derivation.

When the Arabs came into Europe and learned from the nations, they encountered the wisdom of all the ages then past, they became deeply interested in the attempts that the old Greeks had made to turn their metals into gold.

That it had been declared to be a secret and mysterious process made it all the more fascinating to them. And so they became alchemists and called themselves Hermetic philosophers, because tradition declared Hermes Thymegistus about two thousand years before Christ had discovered how to convert the baser metals into gold.

To melt the mouth of a glass tube so as to close it was called securing it with "Hermes, his seal." We know little or nothing of Hermes, or when he lived, or whether he ever lived at all; but it is curious that even to this day when a bottle or jar is closed so that it is airtight we call it hermetically sealed, after this same Hermes.

A dog makes almost as much noise when he barks as a man does when he barks his shins.

A cheeky girl with painted cheeks is—cheeky.

Some men would rather owe you a bill for ever than put you to the trouble of collecting it.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freezezone." This will cost very little but is sufficient to remove every hard or soft corn on one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freezezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue on skin.

Don't let a latent die of infection or lockjaw from whitening at his corns, but clip this out and make him try it.

The Goodness of Apples

Because we like apples we use them, but apart from that we use them because they contain healthful acids, needed minerals including iron, lime and sulphur, many calories of energy, and some real nutrition.

True, an apple is 85 per cent. water, but so is milk, and the apple has 13 per cent. of sugar and starches.

A druggist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labelled his own product.

This greasy imitation is the poorest one we have yet seen of the many that every Tom, Dick and Harry has tried to introduce. Ask for MINARD'S and you will get it.

Canada's Fish Catch

During the month of August the total value of the sea fish brought to the various points of landing in Canada increased by \$225,882, as compared with the same month last year. The total value of the fish taken on both coasts was \$4,485,722. Especially on the Atlantic coast was the increase noticeable, the catch of cod, haddock, hake, and pollock being some 20,000 hundredweights greater than the catch in August of last year.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The D. Williams' Medicine Co., Brockville, Ont.

Of course the serpent knew things were coming his way as soon as he discovered a woman in the garden.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly kill the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand, no child should suffer an hour from worms.

Plowing Moderate Depth

Provided the plowing of the summer fallow in the previous year has been deep, as it should be, there is little advantage in deep fall plowing for wheat. About four or five inches will bury the stubble satisfactorily and will not be so much in danger of leaving an open dry bottom to the seed bed as where a large amount of stubble is turned in too deeply. This is even more true of early spring plowing, where a moderate depth is decidedly preferable.

Too Much Appetite may be as dangerous as too little

When the skin is sallow or yellow, the eyes dull, the head aches or sleep broken and unrefreshing, the back aches, or there is a pain under the right shoulder blade—it is an indication that the body is being poisoned by poorly digested and imperfectly eliminated food-waste. It is a wise thing to take

Returns to Canada

Aged Priest Comes Back to the Land He Loves to End His Days

Returning at his request to die in the land that he labored in for more than 40 years, Father Auguste Leconte, now 74 years old and totally blind, arrived at New York on the steamer La Touraine, on his way to Canada. Father Leconte was for 43 years in charge of missions along the Mackenzie River, in the far north of Canada, and, with a flowing snow-white beard and black skull cap, was a striking figure among the passengers. With him returned seven sisters of the Order of Daughters of Jesus, and he will go with them to St. Albert's Nunnery in Alberta, to spend his last days.

Extent Of Damage Done To France

War Damages To The Extent Of 355,000,000,000 Francs

An extraordinary meeting of the French Parliamentary Committee of Commerce, now held at the Palais Luxembourg when the president, Mr. Chaumet, heard a report on public finances by Raphael Georges Leag, who showed that France has suffered through the war damages to the extent of 355,000,000,000 francs. He declared that the next French budget will amount to 25,000,000,000 francs at the very least.

A TONIC FOR THE NERVES

The Only Real Nerve Tonic Is a Good Supply of Rich, Red Blood

"If people would only attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."

The sort of thing which the specialist spoke of is the nervous run-down condition caused by overwork and the many anxieties of today. Sufferers find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears, and do not sleep well at night. Headaches, neuritis and other nerve taints are part of the misery, and it all comes from starved nerves.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. Therefore to cure nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills actually make new, rich blood, which strengthens the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all "out of sorts" you should begin curing yourself today by taking Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box and six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

Economy a Necessity

All sorts of interests are at stake as the result of disquiet on account of the cost of living. It is the source of trouble with all the agencies for the production and the distribution of products, and the authorities concerned with maintaining order and observance of personal rights. It requires 150 pounds of steam to blow the whistle, which can be heard twelve miles.

"KILL-JOYS"

Constipation, Headache, Colds, Biliousness ended with "Cascarets"

Nothing takes the joy out of life quicker than a disordered liver or waste-passages. Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad, and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or harsh pills. They work while you sleep.

THE MINISTER OF FINANCE OF THE DOMINION OF CANADA offers for Public Subscription the

Victory Loan 1919

\$300,000,000. 5½% Gold Bonds

Bearing interest from November 1st, 1919, and offered in two maturities, the choice of which is optional with the subscriber as follows:

5 year Bonds due November 1st, 1924. 15 year Bonds due November 1st, 1934
Principal payable without charge at the Office of the Minister of Finance and Receiver General at Ottawa, or at the Office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria.

Bonds may be registered as to principal or as to principal and interest, as hereinafter provided, at any of the above-mentioned offices.
Interest payable, without charge, half-yearly, May 1st and November 1st, at any branch in Canada of any Chartered Bank.

Principal and interest payable in Gold.

Denominations: \$50, \$100, \$500, and \$1,000

Issue Price: 100 and Accrued Interest,

Income Return 5½% per Annum

The proceeds of the Loan will be used to pay indebtedness incurred, and to meet expenditures, to be made in connection with demobilization (including the authorized war service gratuity to our soldiers, land settlement loans, and other purposes connected with their re-establishment into civil life), for capital outlay upon shipbuilding, and other national undertakings forming part of Canada's industrial reconstruction programme, and for the establishment of any necessary credits for the purchase of grain, foodstuffs, timber and other products, and will be spent wholly in Canada.

10% on application: Payment to be made as follows:
30% December 9th, 1919; 30% January 9th, 1920;
20% February 10th, 1920; 31.21% March 9th, 1920.

The last payment of 31.21% covers 30% balance of principal and 1.21% representing accrued interest at 5½% from November 1st to due dates of the respective instalments.

A full half-year's interest will be paid on May 1st, 1920, making the cost of the bonds 100 and interest.

Subscriptions may be paid in full at the time of application at 100 without interest, or on any instalment due date thereafter, together with accrued interest at the rate of 5½% per annum.

This Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge upon the Consolidated Revenue Fund.

The amount of this issue is \$300,000,000, exclusive of the amount (if any) paid for by the surrender of bonds of previous issues. The Minister of Finance, however, reserves the right to allot the whole or any part of the amount subscribed in excess of \$300,000,000.

Payments

All cheques, drafts, etc., covering instalments are to be made payable to the Credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture, and the allotment to cancellation. Subscriptions other than those paid in full on application must be accompanied by a deposit of 10% of the amount subscribed. Official Canvassers will forward subscriptions or any branch in Canada of any Chartered Bank will accept subscriptions and issue receipts.

Subscriptions may be paid in full at time of application at 100 without interest, or on any instalment due date thereafter, together with accrued interest to time of making payment in full. Under this provision, payment of subscriptions may be made as follows:

If paid in full on or before November 15th, 1919, par without interest or 100%.
If remaining instalments paid on Dec. 9th, 1919, balance of 90% and interest (\$90.52 per \$100).
If remaining instalments paid on Jan. 9th, 1920, balance of 70% and interest (\$70.84 per \$100).
If remaining instalments paid on Feb. 10th, 1920, balance of 50% and interest (\$51.08 per \$100).
If remaining instalment paid on Mar. 9th, 1920, balance of 30% and interest (\$31.21 per \$100).
Payment of instalments or payment in full after November 15th, 1919, can be made only on an instalment due date.

Denomination and Registration

Bearer bonds, with coupons, will be issued in denomination of \$50, \$100, \$500, and \$1,000, and may be registered as to principal.

Fully registered bonds, the interest on which is paid direct to the owner by Government cheque will be issued in denominations of \$500, \$1,000, \$5,000, \$10,000, \$25,000, \$50,000, \$100,000, or any multiple of \$100,000.

Payment of Interest

A full half-year's interest at the rate of 5½% per annum will be paid May 1st, 1920.

Form of Bond and Delivery

Subscribers must indicate on their applications the form of bond and the denominations required, and the securities so indicated will be delivered by the bank upon payment of subscriptions in full.

Bearer bonds of this issue will be available for delivery at the time of application to subscribers desirous of making payment in full. Bonds registered as to principal only, or fully registered as to principal and interest, will be delivered to subscribers making payment in full, as soon as the required registration can be made.

Payment of all instalments must be made at the bank originally named by the subscriber.

Non-negotiable receipts will be furnished to all subscribers who desire to pay by instalments. These receipts will be exchangeable at subscriber's bank for bonds on any instalment date when subscription is paid in full. All receipts must be exchanged before 1st June, 1920.

Form of Bonds Interchangeable

Subject to the payment of 25 cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds without coupons, at any time, on application to the Minister of Finance or any Assistant Receiver General.

Forms of application may be obtained from any Official Canvasser, from any Victory Loan Committee, or member thereof, or from any branch in Canada of any Chartered Bank.

Subscription Lists will close on or before November 15th, 1919

On our return home from a Chautauqua concert the other evening, we came upon a form, that with queer cries and queerer gesticulations, was devouring large quantities of earth and snow. Upon investigation, it proved to be Tommy Watson again, who with tears in his hair and on endeavor to inform us that he was trying to commit suicide. For, said he, I took a young lady to the show, and she has went home with another fellow, was is me.

Have you seen the new "Shimmie" dance? If not it is your own fault. Last Wednesday at the Chautauqua dance, Mr. Wickie able demonstrated the same to the huge delight of many, and the heartaches of a few fair maidens Yessir, he jazzed right through and had for a partner Dennis the Dog, hence the heartaches.

Last Sunday Miss Cameron was taken for a joy-ride by our worthy pastor. The question is now open for debate that if the pastor is the incumbent, would Miss Cameron be the incumbents'.

We know now why Bandmaster Tarr has ordered the music for the band called "Pretty Babies".

Some of the girls want to know what the attraction is at the back of the Hall on dance nights. Beautiful music, beautiful girls, and the boys all herded in a corner like billy-goats. Boys find your hoodoo. Mr. Coniah found his and passed it going 40 miles an hour.

A useful aid to Ford owners has been discovered. It has been found very convenient to carry along a Big Ben clock, so that when the engine stalls, you can insert the works of the clock, and with a few winding, it will carry you to the nearest service station.

Miss Aida was overheard at one of the Chautauqua dances, asking one of the Serbian boys (the pretty one) if he would not like to go to school at Monitor. She promised to teach him perfect English and a lot of other nice things too. We feel sure that if she had succeeded in her object, Doris would have also wanted to attend school again.

Your money will be safe in the safe at our local bank. On Monday last the old safe froze up and hasn't thawed out yet. Some of the farmers think this is a put up job to prevent them from borrowing money. Cheer-up boys, there's a safe cracker coming from Winnipeg in a day or so.

As Dora Childress says, "She opened the door, and influenza

It was announced last Sunday in church that there would be no singing by the choir that evening, as our able choirmaster, and his fair assistant, were ill. As Sherlock Holmes would say—"Now my dear Watson, the next step is to find out if they had the same complaint, what?"

Ye Ed. rises to remark that he'd appreciate your subscription. Just a dollar!

Two of our local stockmen the B and B Co., left last week for St. Paul with a consignment of cattle. It is reported that they flooded the market, and themselves also. When last seen, they were in a box car special, headed for Chicago. They may return by aeroplane, and settle down in Monitor and raise more B-big 8-teers.

It isn't necessary to go to a bucking contest to see a bucking horse. Our local teamster has one right along with him. At the last contest Bob lay proved to be the champion, but was disqualified for pulling snow shovels instead of leather.

Contrary to general expectation, Dan is not going north this winter. "For" say he, "the fish are biting just as good elsewhere".

U.F.O. Do Not Favor Coalition

Tag. Co. — There will be no alliance of the United Farmers of Ontario in the legislature with either the Conservatives or Liberals, but they may join with individual members of the old line parties in forming a government. This decision was arrived at by the members-elect of the United Farmers and U.F.O.-Labor after a lengthy session.

Following is the official statement of United Farmers of Ontario, issued by Secretary J. J. Morrison:

"The members-elect of the United Farmers of Ontario, after discussing the matter, have decided that it would be unwise for them to enter into alliance with either of the old parties. They are prepared to assume the fullest share of responsibility and form a government in co-operation with such members of other parties as are in sympathy with their platform and principles, and are free to give support thereto.

"In the formation of a cabinet, full consideration will be given to the various interests of the province."

Revised standing of new Ontario legislature follows:

U.F.O., 45; Liberals, 28; Conservatives, 25; Labor, 11; Soldier, 1; Independent Liberal, 1. Total, 111.

U.F.O. list includes two candidates endorsed by labor, one endorsed by Liberals, and one endorsed by labor and veterans. The Labor list includes two also endorsed by U.F.O.

Sir John Hendry, lieutenant-governor, was in his office in the parliament buildings during the time the cabinet was in session, apparently ready to receive any advance that might be forthcoming from the premier.

The difficulty with the members of the present government is the matter of deciding as to their proper course. Now that the government has been rejected at the polls, they do not know what the United Farmers are going to do or what sort of combination may be formed in order that the government of the province may be carried on. Pending definite information from the United Farmer members-elect, the cabinet may meet from day to day to discuss developments.

Committee on Execution of Treaty

Lord Derby Appointed as Delegate to Represent Great Britain

Paris.—The nominations of various delegates to the committee on interpretation and executions of the German peace treaty were put on record by the supreme council. The nominations registered were:

Italy—Count Bonin-Langere, the ambassador to France, and Signor Pisano.

France—Stephen Pichon, the foreign minister, and Philippe Berthelot, critical director of the foreign office.

Great Britain — Lord Derby, the ambassador to France.

Japan—Baron Matsui, ambassador at Paris.

A delegate who advocated a state purchase encountered much opposition. "Fussy-foot!" Johnson addressed the meeting.

Col. Avaloff-Bermond Declares He Has Offered an Armistice to the Letts

Berlin.—The British naval commander at Libau, says a dispatch from Reval, Estonia, has sent a demand to Col. Avaloff-Bermond to evacuate Ust, Drinsk (Dunamonde) and Thorsensberg, west of Riga.

Col. Avaloff-Bermond, in reply, said that after successfully safeguarding a strategic base for an offensive against the Bolshevik, he had offered an armistice to the Letts October 10.

He requested that his endeavors to obtain an armistice should be supported.

Britain Supplied War Material to Russians

Tremendous Number of Guns and Ammunition Has Been Sent

Vladivostok.—General Knox, chief of the British military mission, in a statement to the Russian Telegraph Agency at Omsk, says:

"Great Britain has furnished the Siberians and General Denikine with great quantities of munitions—hundreds of thousands of rifles, hundreds of thousands of cartridges, hundreds of thousands of machine guns, as well as several hundred thousand sets of uniforms and equipments. Each cartridge fired this year by Russian soldiers was made in England, by English material and by English workers, the supplies being shipped to Russia on English steamers.

British Embassy in Berlin

London.—Walford H. Selby has been appointed provisional representative of the British Government in Berlin. He will open the embassy in Berlin as soon as the peace treaty becomes effective. The Associated Press was officially informed to this effect.

LET "DANDERINE" SAVE YOUR HAIR

Check ugly dandruff! Stop hair coming out and double its beauty

A little "Danderine" cools, cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the farnished hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, or getting thin, dry or fading.

After a few applications of "Danderine" you seldom find a fallen hair or a particle of dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

A few cents buys a bottle of delightful "Danderine" at any drug or toilet counter.

Warships Bombarding Fortress of Kronstadt

French Vessels Reported Active on Forth; Are Able to Keep Beyond Range of Fortress Artillery

Copenhagen.—A dispatch to the Politiken from Helsingfors reports that French warships are bombarding Kronstadt. They are able to keep beyond range of the fortress artillery, owing to the long range of their guns.

Memnonites Must Comply With Law

No Deviation From Enforcing School Attendance Act

Winnipeg.—There will be no deviation from the rule of enforcing the School Attendance Act in Manitoba, and Memnonites, like other sections of the community, will have to comply with the law. Dr. Thornton, minister of education, told a delegation of Memnonites which requested the government to postpone enforcement.

The visit was the result of developments in the municipality of Hanover, Man., following legislation enacted at the last session of the legislature.

Previously Hanover had no public schools, but the government has mapped out the whole district into public school areas and two schools are already in operation and two others nearing completion.

Riots Resumed in New York

New York.—Rioting broke out again around the Lexington theatre, when for the second time in a week the Star Opera company produced German opera over the protest of veterans of the world war.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative, or physic for the little stomach, liver and bowels. Children love its delicious, fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Sufferings in Russia

Men, Women and Children Are Falling Dead in the Streets From Hunger

Paris.—Pictures of Moscow's hunger are given in the Figaro by a Russian princess arriving from Russia. "I will not speak of the terrible revolting and odious things that passed in the streets of Moscow," she said, "but only of the hunger incidents I saw with my own eyes and which were repeated day after day. I met a woman and child, ragged and thin as skeletons, the child crying constantly with an unchanging expression of terror. The mother said that the child was hungry and asked for a piece of bread as they had not eaten for twenty-four hours. I opened my purse, but the woman turned away saying, 'No, not money, but bread.'"

"Another time I saw a blonde-haired young girl with arms outstretched, leaning like a living crucifix against a wall and murmuring, 'I am hungry.' Next day she died. 'I have seen children, hardly clothed, hollow-checked, and with forms like shadows, on their knees in the street trying to pick from the paving stones grains of wheat that had fallen from a torn sack. I have seen before bakers' men, women and children stretched on the cold stones, waiting through days and nights their turn to get their meagre ration of bread, and then often falling exhausted and dying at the door steps before they received it.'"

Berlin.—The Supreme Council has refused a request from the German government that members of the inter-allied commissions in Germany should not wear uniforms after the peace treaty comes into effect.

Final Efforts To Avert Miners' Strike

Austrian Constitution Is Amended

Dr. Otto Bauer Chosen Chairman of Commission to Frame New Constitution

Vienna.—The national assembly has eliminated from the constitution adopted recently the provision declaring Austria to be a composite part of Germany. The elimination was determined upon to meet the terms of the peace treaty.

Dr. Otto Bauer, who last week resigned as minister of socialization, has been chosen chairman of a commission to frame a new constitution for Austria.

Bulgaria Wants Trial Of Ex-Emperor

Demands the Arrest and Trial of King Ferdinand

Geneva.—A dispatch received here from Belgrade says the powerful peasant party in Bulgaria demands the arrest and trial of King Ferdinand, and also of former Premier Radoslavoff and Malinoff, as being responsible for the war and leading Bulgaria into misery and the loss of provinces. According to the dispatch, confiscation of all the royal possessions is demanded.

Sir Adam Beck May Retire

Will Not Stay as Chairman Of Hydro-Electric Unless With a Sympathetic Government

Toronto.—Sir Adam Beck, interviewed, said he knew nothing of the discussion of the newspapers concerning his future course. He indicated that it was very doubtful if he would remain as chairman of the hydro-electric commission.

"On no account will I stay, except I am assured of a government that is in full sympathy with and behind the power development and hydro-radial projects," he said. "It would be useless to attempt to go on otherwise."

Delegates from Austria and Germany

Berlin.—The German and Austrian governments, it is learned, have decided to send delegates to the Washington Labor Conference, inasmuch as the supreme council of the allies has recommended their admittance as fully qualified members.

The delegates of the two nations probably will leave together for Washington soon.

Washington.—While committees representing miners and operators, making a final effort to avert the strike of half a million miners on November 1, were on the verge of parting for good, Secretary of Labor Wilson held them together, overnight at least, with a wage increase proposal that ignored union demands for a 34-hour week.

There was every assurance that the operators would accept it, and every indication that it would be rejected bodily by the miners.

Refusal of the miners to accept will bring the conference to a close and force government officials to resort to other means to prevent the closing of the mines with the first approach of winter.

Secretary Wilson's offer, which prevented acute disruption of the proceedings, set forth the following: That wages be increased at the expiration of the present contract in an amount equal to the differences between increases in wages received by the mine workers since July, 1914, and the increase in the cost of living since that date.

That the increase be effective from the termination of the present agreement until March 31, 1920.

That on these conditions the strike order be withdrawn and that the miners continue at work on these terms; that negotiations be entered into at the usual time for making the new scale effective after March 31, 1920.

Fleet For Far East Likely

Admiral Jellicoe's Report on Naval Defence Laid on Table in Australia

Melbourne.—The report of Admiral Lord Jellicoe concerning the naval defense of the Far East has been laid upon the table of the Australian House of Representatives. Admiral Jellicoe, who has been making a tour of the British dominions to consider plans for their naval defense, says in the report that the naval end of the British Empire will probably demand within the next five years a strong Far Eastern fleet, comprising vessels of the royal navy, the East Indian squadron and the Australian, Canadian and New Zealand navies.

German-Austria Title Abolished

Vienna.—The National Assembly adopted an act abolishing the name of "German-Austria" for the nation and substituting the title "Republic of Austria." The Pan-German party offered violent opposition to the change.

A Nervous Wreck

BY DR. D. E. GRANTIER.

How many business men feel fagged out, nervous, with a "soggy brain"—worn out completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a

common cold to gripe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anuric" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anuric" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.
